

Corrigenda and addenda to Systematic notes on Asian birds 1-8
in Zoologische Verhandeling Leiden 331

- p. 110, comment 24: it has been suggested by Murray Bruce (pers. comm. 7.ii.2001) that Captain Hay was probably Captain W.E. Hay (1805-1879) listed in the bibliographic key – names of birds of the world by Wynne (1966). Hay's dates in Penang (1824-1830), given there, are certainly contemporary. Gray also named *Bucco Hayii* (now *Calorhamphus fuliginosus hayii*) after him with a terra typica of Molucca, since corrected to Malacca.
