

**XIII. THE CORRECT CITATION OF  
SETARIA PALMIFOLIA VAR. BLEPHARONEURON (GRAMINEAE)**

J. F. VELDKAMP

Rijksherbarium, POB 9514, 2300 RA Leiden, The Netherlands

When I made the combination *Setaria palmifolia* (Koenig) Stapf var. *blepharoneuron* (in Saw et al., 1988), I attributed the basionym *S. neurodes* Schult var. *blepharoneuron* to Andersson (1861). After all he stated 'Varietates mihi sunt:'

Dr. H. Scholz (B) has now pointed out that Andersson's whole discussion is a verbatim copy of the annotations made previously by A. Braun (1856).

Fortunately this does not invalidate the combination, as it may be regarded as a bibliographical error covered by Art. 33.2 (cf. Example 5), and only the bracketed author has to change. The correct citation therefore is:

*Setaria palmifolia* (Koenig) Stapf var. *blepharoneuron* (A. Braun) Veldk., Floribunda 1 (1988) 22\*, based on *Panicum neurodes* Schult var. *blepharoneuron* A. Braun, App. Gen. & Sp. Nov. Hort. Bot. Berol. 1855 (1856) 20.— Type: Wallich 8703 [B, holo, fide Scholz, K, n.v. (microfiche IDC 7394-867); L!], Nepal (locality illegible), 1821.

LITERATURE

Andersson, N.J. 1861. Gramineae, in Walpers, Ann. Bot. 6 (1861) 944–947.

Braun, A. 1856. Appendix generum et specierum novarum et minus cognitarum, etc. 1855 (Index seminum in Horto botanico berlinensi anno 1854 collectorum): 18–20.

Saw, L.G., T. Uji & J.F. Veldkamp. 1988. Notes on the *Setaria palmifolia* group (Gramineae) in Malesia. Floribunda 1: 21–23.\*

\* Floribunda is a journal published by the Herbarium Bogoriense, Bogor, Indonesia.
