

## INDEX TO SCIENTIFIC PLANT NAMES

Numbers refer to page numbers. Infrageneric epithets have been entered directly under the generic name to which they belong, preceded by the indication of their rank (subg., sect., etc.). Intraspecific epithets have been entered under the specific name to which they belong, preceded by the indication of their rank (subsp., var., etc.).

Synonyms (including nomina nuda) have been printed in *italics*. Page numbers in **bold** type denote main treatment.
